

Corporate Partnership Program

For 25 years, The Kim Foundation has worked to increase education and advocacy around mental health and suicide prevention, serving as a resource for communities in Nebraska. Local data and national best practices inform our events, conferences, and programming initiatives to support suicide prevention education, mental health awareness, and post-suicide support for loss survivors.

Corporate and business partners are a crucial part of these efforts, as we continue to see increases in suicide deaths in working-age individuals. By prioritizing the mental health of your employees and elevating our foundation's resources and support, you will help save lives from suicide and create a healthier community for everyone.

The Kim Foundation offers three levels of corporate partner opportunities:

Please note, these levels can be adapted to fit the individual needs of your company.

Hope Partner - \$60,000
